

# OFFSET DROP DOWN MOUNT FOR LARGE PTZ CAMERAS

**For Ceiling Mounting Sony® BRC-300,  
BRC-Z700 and BRC-H700 PTZ Cameras**  
Model Number 535-2000-294

The Vaddio Drop Down Series Camera Mount for the Sony BRC-300, BRC-Z700 and BRC-H700 PTZ cameras is designed to allow integrators to easily install PTZ cameras in locations where wall mounting a camera is not possible, such as suspended (not attached directly to the suspended ceiling grid) or vaulted ceilings. Installation utilizing this mount allows the camera to be installed closer to the presentation area or stage where a presenter will be located.

The mount is intended to be connected to third-party mounting hardware with a 1" NPT thread. The 1" NPT pipe thread on the top of the mount allows greater flexibility in integrating this mount into a wider range of applications.

The key features of the Drop Down Series of Cameras are:

- Designed to fit Sony BRC-300, BRC-Z700 and BRC-H700 PTZ cameras
- Bent tube design shifts the center of gravity towards the middle of the camera mounting platform
- Location at the back of the mount for the Quick-Connect EZIM to be installed
- Mounting tube acts as a cable pass-thru for the Vaddio EZ Camera Cat. 5 cabling system
- Allows cameras to be installed closer to the presentation area of a room
- Constructed from steel with black powder coat paint, which provides an attractive and lasting finish
- Dimensions & Weight: 535-2000-294 -- 27-1/4" H x 8-1/4" W x 13-3/4" D – Weight: 9.4 lbs.  
69.3 cm H x 21 cm W x 35 cm D – Weight: 4.26 kg.
