

Release Notes for:

## AV BRIDGE MATRIX PRO

### Release Information:

**8/17/2018**

#### AV Bridge MATRIX PRO 2.1.0

Notes:

- New Features

- Added support for the PrimeSHOT HDMI and WideSHOT SE cameras.
- Improved support for DocCAM 20 HDBT.
- Added the ability to disable Telnet and HTTP access to the device.
- Added the ability to configure HTTPS certificates from the web interface.
- Added advanced streaming settings for enhanced compatibility with VPN environments.
- Improved device security by disabling TLS v1.0 protocol, and disabling DES and 3DES TLS cyphers.
- Improved responsiveness when controlling HD-19 cameras.
- Fixed available parameters for the "video" serial interface command.

- Known Issues

- Trying to log into the device before it has finished booting may cause the UI to load incorrectly. Refreshing the page will resolve the issue.

**11/9/2017**
