

Release Notes for:
RoboSHOT® 12 & RoboSHOT 30 HDMI system models

Release Information:

Date: 7/17/2018
v2.3.1

Notes:

- New Features:
 - o Update for Codec Control Mode improving camera focus when used via some third-party codecs.

Date: 03/21/2018
v2.3.0

- New Features:
 - o Added CODEC compatibility mode for Polycom® 3xx/5xx/7xx series Codecs.
 - o Added CODEC compatibility mode for Cisco® SX-20 and SX-80 series CODECs. (Note: For SX-20 CODECs, Vaddio recommends CODEC's firmware be updated to latest "CE" series firmware for best operation).
- Security Updates/Improvements
 - o Added ability to disable the Telnet server on the device.
- Control / Configuration Updates
 - o Added ability to import configuration settings exported from previous versions of software.
 - o Added Telnet control commands for absolute position control.
 - o Improved ability via Telnet control to allow finer detailed position setting for zoom.
 - o Updated syntax for "network ping count" Telnet command.
 - o Enhanced support for USB joystick control.
 - o Updated system time zone data.
 - o Interoperability improvements with Internet Explorer® 9 through IE11.
 - o Various web UI improvements.
- Various other minor updates.

Date: 10/12/2017
