Vaddio Announces StreamVIEW Single Channel Camera Server

MINNEAPOLIS, MN (March 1, 2006) – Vaddio proudly announces its first product to simplify transmission of high quality video and audio over Internet and IP networks. StreamVIEW is an appliance designed for use with any video and audio source for live broadcast over the Internet as well as digital recording for playback on demand. StreamVIEW will be demonstrated at the NSCA Expo, March 16-18, 2006 in Las Vegas, NV, in the Vaddio booth #3513.

The Vaddio StreamVIEW was designed to provide system integrators with a simple and cost effective way to stream video and audio content from any Vaddio camera control system or any other A/V device. The StreamVIEW also allows any Sony (EVI or BRC Series) or Canon (VC-C50i series) PTZ Camera to become an IP camera with complete web-based remote control. The StreamVIEW is delivered with software for many applications such as recording and simultaneous multiple site viewing. The overall value and capability of the StreamVIEW is unmatched in today's A/V network server market.

Rob Sheeley, president of Vaddio states, “Our resellers have continuously requested a device which would provide them an inexpensive means of providing their clients the ability to stream live meetings, church services and classroom presentations. The StreamVIEW was designed to meet these demands while maintaining the ultimate goal of creating a product that is affordable in any style of installation. At a suggested list price of \$995.00, we sincerely feel that the StreamVIEW is the device that can finally bring high quality video streaming to the entire Audio Visual marketplace.”

About Vaddio:

Vaddio is the leading designer and manufacturer of specialty PTZ cameras and high-end camera control systems used in the broadcasting, audio/visual and videoconferencing industry. Headquartered in Minneapolis, MN, Vaddio also has operations throughout the Americas, as well as sales and support partners throughout the world. More information can be found on the Vaddio website, www.vaddio.com or at (800) 572.2011.
